

# FAI on the Edge

## Northern Italy to Crete

Volker Grassmann, DF5AI

In this column, FAI opportunities are shown which might encourage radio amateurs to conduct unusual dx propagation tests.

FAI scatter volumes (dot marks) corresponding to the path I -SV9.

Please contact the author at [feedback@df5ai.net](mailto:feedback@df5ai.net) or, alternatively, visit the [www.df5ai.net](http://www.df5ai.net) webpage if a detailed analysis of antenna headings, target areas and scatter volumes is required in serious propagation tests.
